

CITY OF BALLARAT BUDGET 2021/22

MESSAGE FROM THE MAYOR OF BALLARAT

This budget is informed by the 'Ballarat: Our Future' community engagement process undertaken for the new *Council Plan 2021–2025*.

It reflects what you, our community, told us is important. You told us you want us to focus on delivering key infrastructure and services, while managing growth in a sustainable way. You also want a strong focus on the environment.

We are at a significant moment in time. At the same time as we are working to support our community's post-COVID recovery, our city is facing rapid population growth. Councillors are committed to tackling these challenges with determination and, equally, embracing the opportunities that come with growth, while staying focused on the leadership needed to deliver on our community's shared vision.

We are committed to ensuring more equitable and targeted investment in some of our more established suburbs such as Sebastopol, Delacombe, Wendouree and Miners Rest, which have ageing or inadequate infrastructure.

Council's strong advocacy program has led to a \$5.8 million increase in capital grants this year, with \$33.5 million in our \$130.9 million capital budget coming from federal and state funding. We gratefully acknowledge this increased support and are proud to be working in partnership with federal and state governments to deliver key projects that will help us keep up with growth. After holding rates to a 0 per cent increase last year, this year's increase of 1.5 per cent reflects the rising costs associated with delivering critical infrastructure and services needed to support our growing community as well as the right people resources to deliver these.

This budget has something for everyone, from sustainability initiatives to footpaths and cycling paths, tree planting, and getting our events back up and running. It lays a strong financial foundation for the next four years, while being realistic about what we can deliver.

I encourage you to provide feedback to help ensure we continue to deliver on community priorities.

Cr Daniel Moloney

MESSAGE FROM THE

While this budget delivers on the *Council Plan 2017–2021*, the extensive community consultation undertaken as part of the 'Ballarat: Our Future' community engagement process has genuinely influenced what has been included.

We listened, and we are now getting on with providing the financial resources that will allow us to deliver a range of projects and initiatives in response to your feedback – more investment in integrated transport infrastructure, a greater focus on sustainability, and quality delivery of all the services needed to support our growing community.

A big investment in critical infrastructure is designed to create economic prosperity across the whole municipality by stimulating local job creation and spending. This includes increased investment in integrated transport infrastructure – roads (including more money for rural roads), footpaths and cycling tracks and trails – which will help connect our city.

We are investing in transitioning our traditional waste services to a circular economy in line with community feedback which called for more initiatives that support sustainability, and we are also implementing an organisational cultural change program as part of our commitment to restore trust with our staff and community. Our capital budget is significantly more than last year. This is partly because we have changed the way we report on 'carry overs' as part of our organisation's renewed commitment to greater transparency and partly due to a \$5.8 million increase in capital grants secured.

The increased waste charge is partly driven by the rising costs of waste collection and a big increase in the EPA levy. Importantly, part of this waste charge will be set aside in a new 'Waste Reserve' to fund future infrastructure that supports our transition to a circular economy.

I am pleased to present a budget that is financially sustainable, that shows Council's strong financial position, and where investment is targeted in the areas of greatest need.

Evan King

ACKNOWLEDGEMENT OF COUNTRY

This section provides an overview of the financial parameters and critical statistics relating to the 2021/22 budget.

While last year's budget was designed to respond to the devastating impact of COVID-19, this year's budget reflects a renewed focus and commitment to growth, renewal and the delivery of projects and services.

After a zero per cent increase in rates last year – in response to the hardship experienced by many in our community during COVID – rates this year will increase by 1.5 per cent in line with the rate cap set by the Victorian Government.

The rate cap applies to the overall general rate revenue raised across all property types in the municipality. However, the change in the amount of rates charged for individual properties may be more or less than the 1.5 per cent rate cap, based on the movement in the value of individual properties.

Commercial and industrial rates will be reduced: in the 12 months to January 2021 values for residential. rural residential and farm properties increased at a higher rate than commercial and industrial properties. It has been determined that residential, rural residential and farm properties will share a greater proportion of the rate burden for 2021/2022 - and commercial and industrial rates will be reduced. Over the next four years Council will gradually reduce the differential for commercial and industrial properties to bring the differentials in line with other regional cities.

This budget includes a significant increase in investment in asset renewal: Council is responsible for almost \$2 billion in built assets (i.e. bridges, roads and buildings) – regular investment is critical to ensure these community assets are appropriately maintained so they can continue to provide the level of service the community expects and needs. This budget also marks a new approach to reporting carry overs: \$38 million dollars of undelivered capital works projects have been included in this budget to ensure transparency and to show our commitment to deliver the projects. In previous years carry overs were reported separately, in the following year.

Following a zero per cent increase in the waste charge last year, in line with a Council freeze on all rates and charges in response to COVID, this year will see a 14.75 per cent increase in the waste charge. This is due to the rising costs of waste collection and a significant increase in the EPA (Environment Protection Agency) levy, to \$105 a tonne. This increase in the levy will cost City of Ballarat ratepayers \$3.4 million in the next year, which is \$1.3 million more than last year. The EPA levy will increase again next financial year.

Part of the waste charge will be used by City of Ballarat to set up a 'Waste Reserve' as a way of investing in crucial infrastructure which will divert and recover resources. This reserve is required to help deliver on Victorian Government policy initiatives as outlined in *Recycling Victoria*, as well as to provide for more sustainable options to manage increasing waste volumes. This initiative will support Ballarat's transition to a circular economy, in line with community calls for an increased emphasis on sustainability.

LINK TO COUNCIL PLAN

This section describes how the budget links to the achievement of the Community Vision and Council Plan within an overall integrated planning and reporting framework. This framework guides the Council in identifying community needs and aspirations over the long term (Community Vision and Financial Plan), medium term (Council Plan, Workforce Plan, and Revenue and Rating Plan) and short term (Budget) and then holding itself accountable (Annual Report).

Legislative Planning and Accountability Framework

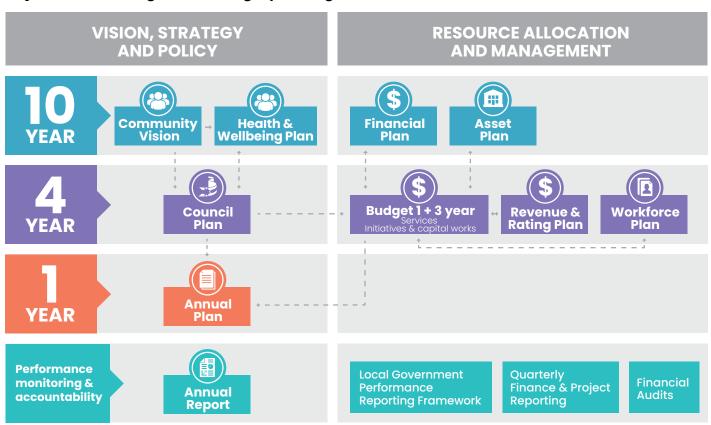

The Budget is a rolling four-year plan outlining the financial and non-financial resources that Council requires to achieve the strategic objectives described in the Council Plan. The diagram below depicts the integrated planning and reporting framework that applies to local government in Victoria. At each stage of the integrated planning and reporting framework there are opportunities for community and stakeholder input. This is important to ensure transparency and accountability to both residents and ratepayers.

The timing of each component of the integrated planning and reporting framework is critical to the successful achievement of the planned outcomes.

Key Planning Considerations

Although councils have a legal obligation to provide some services — such as animal management, local roads, food safety and statutory planning — most council services are not legally mandated, including some services closely associated with councils, such as libraries, building permits and sporting facilities. Further, over time, the needs and expectations of communities can change. Therefore councils need to have robust processes for service planning and review to ensure all services continue to provide value for money and are in line with community expectations. In doing so, councils should engage with communities to determine how to prioritise resources and balance service provision against other responsibilities such as asset maintenance and capital works.

Community consultation needs to be in line with a Council's adopted Community Engagement Policy and Public Transparency Policy.

City of Ballarat integrated strategic planning framework

Protect, maintain and enhance our built and natural assets

ACCOUNTABILITY

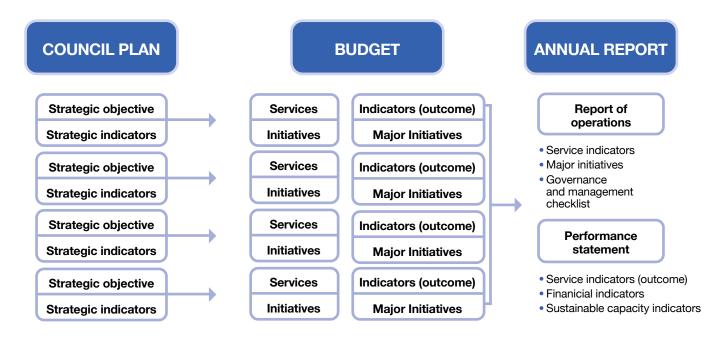

Provide strong and decisive leadership, and transparent governance.

SERVICES AND SERVICE PERFORMANCE INDICATORS

This section provides a description of the services and initiatives to be funded in the budget for the 2021/22 year and how these will contribute to achieving the strategic objectives outlined in the Council Plan.

It also describes several initiatives and service performance outcome indicators for key areas of Council's operations. Council is required by legislation to identify major initiatives, initiatives and service performance outcome indicators in the budget and report against them in our Annual Report to support transparency and accountability.

The relationship between these accountability requirements in the Council Plan, the budget and the Annual Report is shown below

OUR SERVICES

The City of Ballarat delivers more than 80 services to the residents, ratepayers and visitors to the municipality.

We are committed to ensuring these services are delivered in the most cost-effective and efficient way. The City of Ballarat continues to review its business operations to drive financial and service improvements to ensure the best outcomes for our community.

Within this document, each of our services is explained in detail. The delivery of these services reflects the four goals set in our Council Plan 2017–2021:

- Liveability
- Prosperity
- Sustainability
- Accountability

LIVEABILITY

Council understands the importance of a happy and connected community and is working to ensure Ballarat's quality of life remains a key attraction for locals and an increasing number of new residents from metropolitan and other regional areas.

Our objectives are:

- A welcoming, inclusive, active and socially connected city for all ages and abilities
- Healthy cultural life and creative expression through multi-arts, culture and heritage
- Well-used public spaces for living, learning and social engagement
- Public sports and recreation facilities to increase passive and active community participation
- Safe and accessible community spaces and facilities
- A community of respect and equality

MAJOR SPORTS FACILITIES

Service description

Council manages and operates a number of significant regional and state level sporting facilities. Each of these facilities provides both entertainment and participation benefits for the Ballarat community and the broader region. Each of the facilities is unique in its nature, however several programs that operate at Ballarat Aquatic and Lifestyle Centre are also provided through commercial operators. A significant uplift in income in 2021/22 is associated with the closure of the facility at the Ballarat Aquatic and Lifestyle Centre in 2020/21 due to COVID-19. A decrease in expenses is due to operational cost savings.

PROSPERITY

We envisage Ballarat as a city of possibilities guided by the Ballarat Prosperity Framework. Our community told us they want a future Ballarat with an embedded culture of innovative thinking and entrepreneurialism; where the spark of creativity is nurtured everywhere. A Ballarat that celebrates its unique identity and heritage; that demonstrates leadership in sustainability and a Ballarat that is a compassionate city – with a strong, caring community.

Council has a clear strategy to deliver both major and community projects, and will form project teams to ensure their delivery is both efficient and effective.

Council also has strong plans in place to advocate for Victorian and Australian Government funding, considering challenges such as rate-capping and cost shifting.

Our objectives are:

- Revitalised CBD and neighbourhood centres
- Planned and sustainable population growth
- Increased investment, jobs and visitation
- A vibrant city that is proud of its identity
- Regional leadership in innovation, research and creative industries

ARTS AND CULTURE

Service description

Arts and Culture supports community access to quality arts and cultural activities through facilitation and engagement programs and implementation of the Creative City Strategy. A reduction in grants is associated with the reduction in income and an increase in expenditure is associated with an expanded program.

4. Notes to the financial statements

This section presents detailed information on material components of the financial statements. Council needs to assess which components are material, considering the dollar amounts and nature of these components.

4.1 Comprehensive Income Statement

4.1.1 Rates and charges

Rates and charges are required by the Act and the Regulations to be disclosed in Council's budget.

As per the Local Government Act 2020, Council is required to have a Revenue and Rating Plan which is a four year plan for how Council will generate income to deliver the Council Plan, program and services and capital works commitments over a four-year period.

In developing the Budget, rates and charges were identified as an important source of revenue. Planning for future rate increases has therefore been an important component of the financial planning process. The Fair Go Rates System (FGRS) sets out the maximum amount councils may increase rates in a year. For 2021/22 the FGRS cap has been set at 1.5%. The cap applies to both general rates and municipal charges and is calculated on the basis of council's average rates and charges.

The level of required rates and charges has been considered in this context, with reference to Council's other sources of income and the planned expenditure on services and works to be undertaken for the community.

To achieve these objectives while maintaining service levels and a strong capital expenditure program, the average general rate will increase by 1.5% in line with the rate cap.

The Bridge Mall Special Rate, which was declared in 2018 for a period of 5 years (expiring 30 June 2023), will be set at \$0.0030480 of CIV on affected properties to raise \$148K for 2021/2022.

This will raise total rates and charges for 2021/22 to \$134.03 million

4.1.1(a) The reconciliation of the total rates and charges to the Comprehensive Income Statement is as follows:

4.1.1(m) Any significant changes that may affect the estimated amounts to be raised by rates and charges

There are no known significant changes which may affect the estimated amounts to be raised by rates and charges. However, the total amount to be raised by rates and charges may be affected by:

- The making of supplementary valuations (2021/22: estimated \$1,616,021 and 2020/21: \$663,908)
- The variation of returned levels of value (e.g. valuation appeals)
- Changes of use of land such that rateable land becomes non-rateable land and vice versa
- Changes of use of land such that residential land becomes business land and vice versa.
- The impact of the COVID-19 pandemic on some people's ability to pay rates and charges

4.3 Statement of changes in Equity

4.3.1 Reserves

Council has a number of reserves which are used to fund various programs. These include statutory and discretionary reserves. Statutory reserves are Open Space Contributions and Developer Contributions Reserves. Discretionary reserves are Asset Realisation (Land) Reserves and Waste Reserves. Balances budgeted at the end of 2021-2022 are as follows:

Developer Contributions Reserve \$17.9 million

Subdividers Reserve	\$3.22 million
Asset Realisation	nil
Waste Reserve	\$0.734 million
Total Reserves	\$21.90 million

The Waste Reserve is being established in 2021-2022. Land purchases will deplete the Asset Realisation Reserve at 30 June 2020

4.3.2 Equity Equity total \$2,019 million

Total Equity always equals net assets and is made up of the following components:

- Asset revaluation reserves represents the difference between the previously recorded value of assets and their current valuations

- Other Reserves that the City wished to separately identify as being set aside for specific purposes

- Accumulated surplus is the value of all net assets less reserves that have accumulated over time.

4.4 Statement of Cash Flows

This section analysis the expected cash flows from operating, investing and financing activities of the City for 2021-2022 year

4.4.1 Net cash flows provided by/used in operating activities

Operating activities refers to the cash generated or used in the normal service delivery functions of the City. Cash remaining after the paying for the provision of services to the community may be available for the investment in capital works or the repayment of debt. The increase in cash inflow from operating activities is mostly attributed to a more normal rates collect pattern following the impact of COVID, and a return to normal for other income streams. Cash contributions from Developers is budgeted to rise this year.

4.4.2 Net cash flows provided by/used in investing activities

Investing Activities refers to cash generates or used in the financing of the City's capital works functions

4.4.3 Net cash flows provided by/used in financing activities

Financing activities refers to cash used to pay interest and principal on council borrowings

# 5. Financial performance indicators

The following table highlights Council's current and projected performance across a range of key financial performance indicators. These indicators provide a useful analysis of Council's financial position and performance and should be interpreted in the context of the organisation's objectives.

The financial performance indicators below are the prescribed financial performance indicators contained in Part 3 of Schedule 3 of the Local Government (Planning and Reporting) Regulations 2020. Results against these indicators will be reported in Council's Performance Statement included in the Annual Report.
